

The Free Technical Service

Increasing energy efficiency and raising awareness about energy savings

Co-funded by the Horizon 2020
Framework Programme of the European Union

The Free Technical Service

- A main check
 - Check of the district heating unit
 - An energy report
 - Every sixth year
- A maintenance check
 - Check of the district heating unit
 - Every second year

Co-funded by the Horizon 2020
Framework Programme of the European Union

Why is it for free?

- The transmission company
 - Cooling tariff on the return water
 - 27.000 euros
 - Cold return water = less costs
- The technical service improves the cooling
 - Decrease in costs

Co-funded by the Horizon 2020
Framework Programme of the European Union

Results

- A monthly average 20 % reduction per homeowner
- A monthly average CO2 emission reduction of 274 kg
- 808 homeowners have accepted the service

Co-funded by the Horizon 2020
Framework Programme of the European Union
